# School Superintendent's Report

We respectfully submit this our first report to the citizens and School Board of the town of Dummer.

We include for your consideration a statistical table taken from the registers and the data at hand in the report to the State.

School	Teacher	Time in Weeks	1919-20 No. Enrolled	Per Cent of Attendance	1920-21 No. Enrolled

	(Irene Miles) .....	.....	.....	.....	12
	Total.....	..	53		58

(Teachers for the present school year are inclosed in parentheses.)

You will note the following in the table given above. There was a legal school year maintained in all the schools with the exception of the Pontook school, which kept for twenty-eight weeks. The scarcity of teachers was the cause. This condition necessitated the use of substitutes and many changes in the teaching force. The salary paid was not as large as that paid in many towns, but

the teachers were, generally speaking, with but little training and experience. We believe that the situation was met in the best manner possible.

The teaching force for the present year has but one teacher of long experience in the same school. The work in this school demonstrates the principal that experienced teachers who are doing good work should be retained. The spirit of the teachers is excellent. They have co-operated with the school authorities and have been efficient in their work.

We found many problems in grading and the adjustment of text books to the needs of the pupils and the requirements of the State program of studies. The shorter school year usually maintained in towns made the work covered in each grade poorly done. As a result we found many of the grades below the standard. We hope to have the new State courses of study in the spring and make a definite grading at that time.

We hope that all the pupils may have, as soon as possible, an opportunity to take the junior high school work as prescribed by the State. While we may have the hot lunch at noon time, as in the Willis school, yet all the pupils in the seventh and eighth years should have some manual work. The boys should have Manual Training and the girls Domestic Arts. The other experience subjects should be emphasized. Elementary Science and the reading of good literature should be emphasized. French should be taught where possible to those pupils who are to enter Berlin High School. We believe that the Willis school would reach a goodly number of pupils, if developed along modern lines.

The out buildings in the three schools in the east part of the town should be remodeled as rapidly as the finances of the town will admit. These were temporarily repaired to meet the requirements of the State this Fall, and a jacket placed above the stove in the Willis school.

I wish to thank the people of Dummer for their co-operation and the excellent spirit shown. We believe that the needs of the schools will have your careful consideration.

E. J. BEST, Superintendent.
